

# PCB Terminal Blocks and Connectors

Range: Clearance

Order Code: DTB7300/36M

## DESCRIPTION

CLEARANCE - 5mm Pitch Pluggable for Vertical or 90° mounting 36 Pole 16A, 250V Male Rising Clamp Terminal Blocks

*Subject to technical modification without notice.  
Typographical and other errors do not justify claim for damages.*

## SPECIFICATION

|                          |                              |
|--------------------------|------------------------------|
| Length (mm)              | 180                          |
| Max Current (A)          | 16                           |
| Max Voltage (V)          | 250                          |
| Contacts Material        | Tinned Nickel Plated Brass   |
| Dielectric Strength      | >=2.5kV                      |
| Number of Poles          | 36                           |
| Operating Temperature °C | 130Å°C                       |
| Pitch (mm)               | 5                            |
| Screw Type               | M2.5 Steel Zinc Plated 0.4Nm |
| UL94 Rating              | UL94-V0                      |
