

Grommets

Range: Cable Glands/Grommets

Order Code: 14 582 21

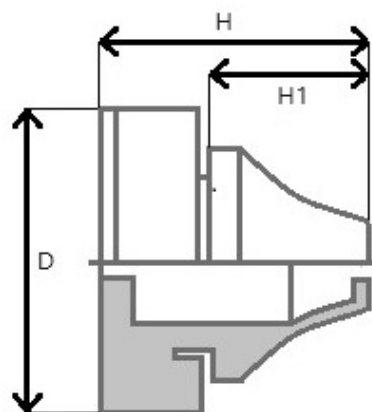

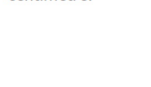

Push the grommet into the hole.

Pierce the grommet with the cable.

The cable will be locked into position by pulling it back about a centimetre.

DESCRIPTION

A cable seal that is very simple to use and does not require any installation tools. This rubber grommet has a pop-out membrane ensuring a round hole every time, safeguarding the IP67 rating. Measurements: D = 21mm, H = 18mm, H1 = 10.3mm, Panel hole diameter = 16mm, Panel wall = 1-4mm

CABLE GLANDS/GROMMETS FEATURES

- SEMKO tested for IP67 internally and externally
- Produced in EPDM and Chloroprene rubber in both PG and Metric sizes
- Ideal where space is restricted, the cable seal adapts to round surfaces
- Very high finish, ensuring the same even and high quality on all products
- ROHS Compliant

Subject to technical modification without notice.

Typographical and other errors do not justify claim for damages.

SPECIFICATION

Product Type	Rubber Grommet
Sealing Ring Material	EPDM
Min Temperature Rating °C	-40Â°C
Max Temperature Rating °C	+110Â°C
IP Rating	IP67
Colour	Grey RAL7001
Hole Diameter (mm)	5-7
Thread Size	PG9/15.2
Test Standard	EN IEC 60670-3
