# Grommets

Range: Cable Glands/Grommets

**Order Code: GSG-ESG-29-GD (14 582 24)**

Push the grommet into the hole.

Pierce the grommet with the cable.

The cable will be locked into position by pulling it back about a centimetre.

DESCRIPTION

A cable seal that is very simple to use and does not require any installation tools. This rubber grommet has a pop-out membrane ensuring a round hole every time, safeguarding the IP67 rating. Measurements: D = 35mm, H = 24.8mm, H1 = 17.6mm, Panel hole daimeter = 29mm, Panel wall = 1.4mm

CABLE GLANDS/GROMMETS FEATURES

• SEMKO tested for IP67 internally and externally
• Produced in EPDM and Chloroprene rubber in both PG and Metric sizes
• Ideal where space is restricted, the cable seal adapts to round surfaces
• Very high finish, ensuring the same even and high quality on all products
• ROHS Compliant

MAKING THE **RIGHT** CONNECTIONS
